Next Steps

IATT MEWG Co-Chairs

James Houston: CDC

Fatima Tsiouris: ICAP

Nande Putta (for Priscilla Idele): IATT/UNICEF

IATT
THE INTERAGENCY TASK TEAM
The Interagency Task Team on the Prevention and Treatment of HIV Infection in Pregnant Women, Mothers and Children

Re-Cap on four recommendations

1. PMTCT programs must move beyond coverage to look at **retention** (Routine monitoring recommendation 2, page 8)
2. Need to **Integrate ART and PMTCT M&E systems** (Routine monitoring recommendation 4, page 14)
3. Need for **enhanced monitoring** during implementation of B+ (Enhanced monitoring recommendation 1, page 20)
4. Conduct **process and systems evaluations in the early phases of roll out of B+** (Evaluation recommendation 1, page 30)

IATT
THE INTERAGENCY TASK TEAM
The Interagency Task Team on the Prevention and Treatment of HIV Infection in Pregnant Women, Mothers and Children

Key Activities

- Multi-country dissemination for 13 countries from East, Southern, West and Central Africa (October 2015)
- Regional Disseminations
- Country Disseminations
- Implementation focused on the four recommendations

IATT
THE INTERAGENCY TASK TEAM
The Interagency Task Team on the Prevention and Treatment of HIV Infection in Pregnant Women, Mothers and Children

Key Outputs

- Case Studies, Documented best practices
- Tools repository
- Improved data quality
- Enhanced data use for decision making
- Use of program data for outcomes and impact assessment
